

## INNOVATION IS OUR PASSION

Securecell is the trusted partner for biopharma, enabling them to bring new therapies to patients in a safe, efficient, and economical way. We innovate ground-breaking measuring and control engineering technologies to radically improve bioprocessing, medical treatment, and patient health. For more than 25 years, we have been delivering innovative solutions in bioprocess control for biotech, pharma, and academia. This expertise and experience provided the fundament for the technology transfer into the MedTech space and the development of Seraccess, a truly disruptive diabetes therapy.

Continuing steadily on our sustainable innovation path and growth journey, we are looking for a

## NUMERA PRODUCT SPECIALIST

for Numera®, our automated sampling system for bioprocess development.

In this role, you will report to the lead of the Numera® Team, and your responsibilities will include, but won't be limited to being responsible for all project management around our Numera® PAT system and planning, scheduling, and coordinating projects. You support our Field Engineer in the installation and maintenance of Numera® systems, user training, application support, and technical support for our worldwide direct customers and distributors. Based on customer experiences and needs, you will further develop and optimize Numera® and collaborate with development project partners in academia. You supervise production ensuring quality control. You will champion the safety, efficacy, efficiency, and usability analysis of our devices. You feel comfortable under pressure and thrive in highly collaborative and agile teams.

## YOUR PROFILE

- You have earned an engineering degree in biotechnology (or comparable), very good knowledge of bioprocesses and analytical methods (PAT) as well as strong technical and IT skills.
- You feel at ease with the fundamentals of electromechanics, design and (SPS-) programming.
- You are willing to embrace travel activities of 30-40% (Europe, North America, Asia)
- You like to work independently and use your strong problem-solving abilities in a goal-oriented way while collaborating and communicating well in an international and intercultural setting.
- 2-3 years of professional experience in a similar function is a plus, however not a prerequisite.
- A valid work permit

Only direct applicants (not via third-parties such as recruitment agencies) will be accepted.

## OUR OFFER

Securecell offers a highly diverse international working environment and the opportunity to collaborate with highly skilled individuals from various disciplines. Partnership and interdisciplinary collaboration are at the core of our company, our research activities, and the commercialization of our marketed products. We nurture true innovation and creative thinking to advance our research projects as well as to continuously improve our marketed products. At Securecell, you will discover a challenging job, inspiring colleagues, and a true purpose. We are looking forward to hearing from you!
