

INNOVATION IS OUR PASSION

Securecell is the trusted partner for biopharma, enabling them to bring new therapies to patients in a safe, efficient, and economical way. We innovate ground-breaking measuring and control engineering technologies to radically improve bioprocessing, medical treatment, and patient health. For more than 25 years, we have been delivering innovative solutions in bioprocess control for biotech, pharma, and academia. This expertise and experience provided the fundament for the technology transfer into the MedTech space and the development of Seraccess, a truly disruptive diabetes therapy. Continuing steadily on our sustainable innovation path and growth journey, we are looking for a talented

APPLICATION SPECIALIST LPIMS

for **Lucillus® PIMS**, our process information management system for bioprocess development.

As a super user of our software platform, you play an important role in customer interactions (application support, project execution) as well as documentation. The documentation includes user or technical manuals, release notes, and training material. In close collaboration with the software development and testing departments, you stay up to date on Lucillus' vast digitalization capabilities and help convert them into improved bioprocessing workflows together with our industry customers. The position offers a splendid entry into our biotech product offering with the potential to develop your role in various directions.

OUR PROFILE

- You have a bachelor's degree in biotechnology or a similar education with good knowledge on bioprocessing
- You have an affinity for IT & software and want to contribute to the digitalization and automation in the bioprocessing industry
- Preferably you bring experience in managing projects within an Agile framework
- Hands-on experience in the (regulated) biopharma industry is a great plus
- Strong communication skills, and you feel at ease with both spoken and written English language
- You like to work independently and use your strong problem-solving abilities in a goal-oriented way while collaborating and communicating well in international and intercultural settings.
- A valid work permit is required, and only direct applications will be taken into consideration (no agencies)

OUR OFFER

Securecell offers a highly diverse international working environment and the opportunity to collaborate with highly skilled individuals from various disciplines. Partnership and interdisciplinary collaboration are at the core of our company, our research activities, and the commercialization of our marketed products. We nurture true innovation and creative thinking to advance our research projects as well as to continuously improve our marketed products. At Securecell, you will discover a challenging job, inspiring colleagues, and a true purpose. We are looking forward to hearing from you!

Please submit your detailed curriculum vitae to hr@securecell.ch

JOB LOCATION

Securecell headquarters are in Urdorf (Zurich), Switzerland.
