

## INNOVATION IS OUR PASSION

Securecell is the trusted partner for biopharma, enabling them to bring new therapies to patients in a safe, efficient, and economical way. We innovate ground-breaking measuring and control engineering technologies to radically improve bioprocessing, medical treatment, and patient health. For more than 25 years, we have been delivering innovative solutions in bioprocess control for biotech, pharma, and academia. This expertise and experience provided the fundament for the technology transfer into the MedTech space and the development of Seraccess, a truly disruptive diabetes therapy.

Continuing steadily on our sustainable innovation path and growth journey, we are looking for a

## LEAD SOFTWARE DEVELOPMENT CENTER PORTUGAL (FRONT/BACKEND)

for our Biotech business

Our software engineers develop next-generation technologies that change how biopharma digitizes and automates bioprocess development to fulfill its purpose and bring highly demanded new medications to patients. Lucullus® and our Web-Applications are constantly being developed and improved as they need to handle different kinds of information from innumerable sources within highly complex and constantly evolving environments. Our vision is to maintain this leading position and stand out significantly from all other bioprocess solutions.

Are you a dynamic and visionary leader with a passion for technology and cross-cultural collaboration? We are seeking an **experienced Leader** for our **Software Development Center** to drive excellence in both frontend and backend development. As a key member of our team, you will play a pivotal role in establishing and managing our **new nearshoring office in Lisbon center, Portugal**.

### YOUR PROFILE

**Among your responsibilities as the Leader for our Software Development Center in Lisbon, Portugal are:**

#### **Strategic Planning and Setup:**

- Establishing our nearshoring office, ensuring seamless integration with our existing teams.
- Collaborating with stakeholders to define the center's mission, goals, and KPIs.

#### **Talent Acquisition and Management:**

- Identifying top-tier frontend and backend developers.
- Building and leading a high-performing development team.
- Fostering a culture of innovation, collaboration, and continuous improvement.

#### **Technical Leadership:**

- Guiding the team in frontend and backend development best practices.
- Ensuring high-quality code, scalability, and maintainability.
- Collaborating with architects and product owners to align technical solutions with business objectives.

#### **Process Optimization:**

- Implementing agile methodologies and efficient workflows.
- Monitoring performance metrics and optimizing processes for productivity.
- Driving continuous improvement initiatives.

#### **Software Development:**

- Performing software development and documentation activities.

**Among your skills and qualifications you bring:**

- **Proven Experience:** Minimum 8 years of experience in software development, including leadership roles, as well as experience in working in projects with multiple SCRUM teams.
- **Technical Proficiency:** Strong understanding of frontend (JavaScript, Vue.JS, React, Angular, etc.) and backend (Java, SPRING, Node.js, etc.) technologies and RESTful services (design, build and use), as well as knowledge of Windows and

Linux operating systems. Knowledge of database development is advantageous (JDBC/Hibernate/JPA). Experience with automation / communication protocols as well as (bio-)process engineering is an advantage.

- **People Skills:** Excellent communication, team-building, and mentoring abilities.
- **Results-Driven:** Passionate about achieving business outcomes through technology.
- **Local Knowledge:** Familiarity and comfort with the local culture, business environment, and regulations is a big advantage.
- English is required.
- Valid work permit for Portugal.

## OUR OFFER

Securecell offers a highly diverse international working environment and the opportunity to collaborate with highly skilled individuals from various disciplines. Partnership and interdisciplinary collaboration are at the core of our company, our research activities, and the commercialization of our marketed products. We nurture true innovation and creative thinking to advance our research projects as well as to continuously improve our marketed products. At Securecell, you will discover a challenging job, inspiring colleagues, and a true purpose. We are looking forward to hearing from you!

### Why Joining Us?

**Purpose:** Be part of our team developing products and software which are supporting health and well-being for mankind.

**Impact:** Shape the future of our nearshoring capabilities and contribute to our global success.

**Innovation:** Work with cutting-edge technologies and collaborate with diverse teams.

**Flexibility:** Enjoy a hybrid work option as a mix of remote work and office presence.

If you're ready to lead, innovate and make a difference, apply now! Send your resume and a cover letter outlining your relevant experience to [hr@securecell.ch](mailto:hr@securecell.ch)

## JOB LOCATION

This position is based in our new office in the city of **Lisbon, Portugal**.
